

With everyone's support, we can bring more smiles

Toothbrush Recycling Collection Box

Please help us by donating your unused toothbrush
when you check out.

“Hello Alson” is a volunteering opportunity with just one toothbrush!

“Hello Alson!” Association for Philippines Medical Care Support

We provide support to people in the impoverished areas of the Philippines,
where they are not able to afford basic necessities as toothbrush.

In these areas, there is a shortage of medical equipment. These shortages result in
inadequate as well as the inability to provide continuous treatment to the communities.
Medical volunteers have no choice in such circumstances but to take options which do
Not provide the best outcomes to community members seeking treatment.

To alleviate the problem of lack of access to adequate treatment, so “Hello Alson
Organization” has started to collect toothbrushes in Japan which will be donated as it
is extremely expensive for people in impoverished areas of the Philippines.

Please assist us in collecting unused toothbrushes.

Thank you for supporting our initiative.
